TEACH Grant Recipient

First Name: Timothy **Last Name:** Nash

Student Profile:

The purpose of teaching is to meet students educational needs. I am pursuing a degree in education due to my talents and passions being uniquely aligned with the teaching profession. The TEACH grant provides me necessary funds for pursuing an opportunity to teach in the field of education. More specifically, the TEACH grant enables me to have more time for the completion of my studies regarding my class requirements and not having to work full time. I am grateful for the TEACH grant as I can now focus more energy and commitment on becoming an elementary school teacher and continue working towards certification. I look forward to aligning my skills with other amazing educators who believe in the same mission of providing quality education to all students.
