## **TEACH Grant Recipient**

First Name: Adam Last Name: Suleiman

## **Student Profile:**

The TEACH grant has been instrumental towards my success because it has allowed me the opportunity in work and strive towards my dream of a professional career (int teaching) without the fiscal stresses that comes along with pursuing a college education. The TEACH grant is also essential for future educators as a result of our dire need for teachers over the next couple of years. Many of our lower-income schools will suffer from the lack of teachers applying within their school districts. The TEACH grant is a way to help keep well qualified educators working in lower-income schools in a long term sense. By keeping the TEACH grant program, both students with financial needs and schools with alack of teachers will benefit.
