

The TEACH grant does exactly what it names suggests. It has taught me that anything is possible. My name is Sadie Fox, and I have received the grant. I come from a middle-income family, so I knew that college was going to be expensive. I did not want to put my parents in debt, and this grant helped with that. From a young age, I knew that I wanted to be a teacher. Helping other has always been important to me, and I hope to one day be able to help my students in the same way that all of my previous teachers have helped me. I grew up in a family of teachers and saw how much my family members have changed the lives of their student. Their passion for their work and students pushed me into the same career. I am a firm believer in “Work a job you love, and you’ll never have to work”, and this is true for educator, teachers are the one career path that truly love their job and helping others. My This grant has helped me be able to live my dream of becoming a teacher, without it who knows if I would have been able to attend college. I believe that teachers are advocates to the children and our main job is to see the children succeed. That reason alone is why I believe that the TEACH Grant has been one of my teachers. It allowed me to expand my mind through college and with it I will be able to succeed.
