**TEACH Grant Recipient**

**First Name:** Hope                      **Last Name:** Robinson

**Student Profile:**

I decided to pursue a career in teaching because of the possibility to impact so many lives. My goal in life is just to help people, and I feel I can do that best through obtaining a teaching degree. Long term, I would love to teach in a hospital for children with life-threatening illnesses. I also enjoy teaching ESOL, so teaching at an international school is also on my list of possibilities. Eventually, I want to study educational psychology through research. The TEACH grant has given me a chance to focus on my studies to become a better teacher. Because of the grant, I can dream and plan to be creative and innovative, because I am not fearful of my debts.
